

# Kylmonter, kantig Metos Halo 1SC1600 LED

Cold LED display with square-shaped design and effective refrigeration made of plexi glass. Cold display is intended for the short-term storage and distribution of pre-refrigerated foodstuffs and beverages

- LED light under front of each shelf
- self-service display with light-weighted doors with handles, support in center of display (4 doors)
- refrigerated basin 104 mm (basin 534x657, fits 4 x GN1/1-65 without additional basin supports)
- airflow cools efficiently basin and 2 glass shelves
- tested in climate class 3 (temperature +25 °C and humidity 60 %)
- easily sliding doors in back of display, GN-pans can be easily fitted from the back
- basin easy to remove and clean
- glass shelves made of hardened glass
- automatic evaporation system
- adjustable feet +15 /- 45mm
- stainless steel frame structure
- GN-measured cold cabinet, capacity: 10 x GN1/1-65
- handle embedded into the door so that it opens easily when display placed against a sidewall

Accessories/features, to be ordered separately:

- handle-free doors
- laminated panelling
- flat or tube-shaped tray slides
- kick plates
- air flow grid
- adaptation for central cooling and drainage
- covering plate in front to achieve even colder display temperatures
