

# Active Green cleaner cartridge Metos iCombi AutoDose

Metos iCombi AutoDose cleaning cartridge intended for cleaning use. The cleaning agent regularly removes all impurities from the oven chamber. The surfaces of the oven chamber remain as clean and bright as in a new oven for years. Supply of solid detergent in cartridges: Solid detergents are safer than liquid detergents and increase work safety in the kitchen. It is also a more ecological option when water does not need to be transported and stored and the product's sufficiency increases cost efficiency.
